This presentation gives attendees insight into the experience they need, how to get it and then how to market themselves for a seat on a board.
- **Becoming an Inspirational Leader** Being any type of leader is a tough job and inspiring your team takes a very special type of person. This session covers the different leadership types, the language of inspirational leaders and how to lead by example.
- **Developing Executive Presence** Powerful women seem to have a certain air about them. But it doesn't often come naturally. Executives work hard at cultivating this presence and this session reveals the tips, tricks and mindset you need to create this presence of your own.
- **Work-Life Balance** The bane of every woman's existence! Drawing from experience working with women across all industries and levels within an organization, this presentation offers best practices and realistic plans for creating a Work-Life balance that works for you.

“Chasity's gift is to connect with others. Chasity took the time to understand the audience - women professionals from the fields of banking, law, and public administration - and was able to draw upon her large knowledge base to craft messages that were meaningful and applicable to the attendees' careers. She is smart, thought provoking, engaging and has the uncanny ability to capture an audience, all reasons why she garnered the highest speaker reviews when we requested participant feedback. We look forward to having Chasity build upon these sessions at future conferences.
